I build stuff.

Education

National University of Singapore

Bachelor of Computing in Computer Science *May, 2014*

- Full scholarship covering tuition fees, living and accommodation allowances
- Among the **top 5** students in the Software Engineering course out of 250 students

St. James' School

Higher Secondary Education, 96.25% *1997-2010*

- **100%** in Computer Science for both 'A' and 'O' Level Equivalents
- **97.2%** in Indian 'O' Level Equivalent (ICSE)
- **98** Percentile in SAT 1, 2230/2400 (Critical Reading - 750, Writing - 710, Math - 770)

Work Experience

National University of Singapore

Teaching Assistant, Software Engineering *August 2012 - December 2012*

- Lead a class of 17 students and guided 4 teams as they made their first real-world application
- Initated classroom discussions on several topics related to Software Engineering

National University of Singapore

Research Assistant, Data Mining and Visualization *May 2012 - July 2012*

- Developed visualizations of Twitter and Facebook data using multi-level Tag Clouds with d3.js
- Deployed the back-end server on Apache Tomcat + Jersey and the Front-End on Heroku in PHP
- Integrated the Google Maps API to add location centric information to the data

IBM Singapore

Software Engineer, Tivoli Division *May 2011 - July 2011*

- Developed a command-line interface for the Tivoli Test Automation Framework using Python and Java
- Wrote shell scripts for automated deployment on server platforms such as Windows, Linux, Solaris
- Enabled testers to deploy automated tests on remote worker machines with no coding
- Converted Jython code into pure CPython code which significantly improved execution time and responsiveness by several orders of magnitude

Project Experience

CS3217 (Modern Platforms) – intensive software engineering on the iPad offered to only 27 students
- KBuddy: iPad Karaoke application with a Ruby on Rails + MongoDB backend
- Huff n Puff: iPad "clone" of Angry Birds with the implementation of a Physics Engine

CS3216 (Evolving Platforms) - web and cloud application development offered to only 40 students
- Kontitude : HTML5 Application to organize conferences
- Status Time Capsule : Facebook Application to give a ranking of user status messages
- MysteryStory : HTML5 Game to provide innocuous learning about AED machines

CS2103 (Software Engineering): Lead a team of 4 to develop - QuickToDo Task Manager in Java
- Project inducted into the Hall of Fame for the course
- Supported natural language input, automated software updating and Google Calendar Integration

CS1101S (Programming Methodology):
- Took the module CS1101S (Programming Methodology) offered only to 60 students in the **MIT Scheme** language and placed 2nd in a Robot Building Competition

Assignment Work

- Security Practice - Explored various attacks like buffer overflows, heap overflows, data fuzzing, XSS attacks, DoS Attacks, Network and Vulnerability Scanners, ARP Poisoning and IP Spoofing
- Parallel Computing - Basketball simulation (OpenMPI) and Matrix Multiplication Intel SIMD
- Machine Learning - Using Weka to apply Machine Learning algorithms to various problems
- Networking - Simple reliable file transfer protocol over UDP

Project Papers

- Enhancing NUSNET using Two-Factor Authentication   2012
- Analyzing Low Level Issues Relating to the Security of RFID/NFC Cards   2012
- Analysis of the BFS Scheduler in FreeBSD   2011

Tech Skills

- Java, Objective-C, Python, C++, C, Scheme, JavaScript, PHP, HTML5, Ruby
- Experience with a wide range of operating systems in both Windows and Unix Environments

Awards and Accomplishments

Competitions
- Tata Consultancy Services IT Wiz Quiz Competition 2009 – National Winner with over 3.5 million participants countrywide

Academic
- Medal for Academic Excellence in ISC   2010
- Bishop's Medal for Academic Excellence - Top Student ICSE   2008

Service
- Principal's Award for the Most Outstanding Pupil   2009-10
- C.V. Shunker Award for Integrity and Service   2009-10
- Reverend Canon Basil Manuel Award for the Best Scout   2009-10

Co-Curricular Activities

National University of Singapore
- Resident Assistant   2010-2011

St. James' School
- School Captain and President of Student's Council   2009-2010
- Troop Leader of Boy Scouts Association   2008-2010
- Nature Club President   2009-2010
